

# NEXUS MINI

BY INDEMNIS

FOR DJI MAVIC 2

**DOES NOT IMPACT  
ANY SENSOR  
FUNCTIONALITY AND  
COMPATIBLE WITH  
ALL DJI ENTERPRISE  
ACCESSORIES**

The Nexus Mini for the Mavic 2 is the smallest ballistic parachute recovery system in the world, it is designed to enable safe flight operations over people. The Nexus Mini operates completely independent of the UAV and works on the Zoom, Pro, and Enterprise Models.

- Works in full flight envelope of aircraft including Sport Mode
- Manual deployment radio with 1 km range
- Proprietary fall detection software for Automatic Deployment
- Easily attaches in seconds with self aligning tabs and security strap

The system mechanically stops the props from spinning to avoid laceration injuries and entanglement.

**ASTM F3322-18  
COMPLIANCE**

Flight Over  
People Approved
